I hereby authorize the above repair work to be completed, including any necessary materials, labour, and/or other charges as may be applicable. Young's Equipment Inc., its employees, and its agents, shall be responsible for the above-noted vehicle, as well as other equipment that may be necessary to operate said vehicle, for the purposes of testing, diagnosing, inspecting, repairing, and/or delivering at my risk. Young's Equipment Inc. is not responsible for any loss of and/or damage to the equipment, or its contents, whether due to collision, fire, theft, or any other cause, except where such loss and/or damage is due to negligence on the part of Young's Equipment Inc. Young's Equipment Inc. is hereby released from any and all claims for loss and/or damage not caused by the negligence of Young's Equipment Inc.  
• It is the customer's responsibility to ensure that a level of insurance, including physical damage insurance, that is acceptable to that customer is in place at all times while Young's Equipment Inc. is working on, and/or in possession of the above-noted equipment.  
• Young's Equipment Inc. does not assume any responsibility whatsoever for equipment left for repairs, storage, or other purposes, nor for articles left in vehicles. Vehicles driven by Young's Equipment Inc.'s employees at own risk.  
• An express mechanic's Lien is acknowledged on the above-noted equipment to secure the amount of repairs thereto. Terms are cash on receipt of invoice. Interest will be charged at the rate of 2% per month (24% per annum). Young's Equipment Inc. reserves the right, at its sole discretion, to refuse the release and/or delivery of equipment until such a point as invoices have been paid.  
• Estimates are for the items specifically identified in the estimate only, and are non-binding.  
• Young's Equipment Inc. and any other manufacturers do not provide warranty, neither expressed nor implied, on any repairs performed on equipment that has been modified.

HYDRAULICS

CORRECTION:

jd aug 26th 23 pulled in unit. started by trying to adjust cable for remote 2 couldn't get it to stay in float no matter

how I adjusted. took apart valve and got it on bench. the inside was gummed up so cleaned all the parts best I could and put back together remote 2 then went into float and seemed to operate fine will run it on flow meter on monday

jd aug 28th 23 hooked flow meter up to remote 2 made sure it was working as it should had an issue with the flow meter. the couplers where stuck closed preventing flow.

jason

helped me free them up quick then tried again got 15 gpm off the remote. looked into noise on remote one. jason mentioned that the noise is common with these tractors started looking at knowledge articles on the problem

jd sept 1st 23 got new detent housing for 9380 for remote 1 and 2 started taking apart old ones. took over to bench started taking apart and putting new housings on them.

started putting hoses and bracket back together

jd sept 4th 23 got bracket and valve reassembled. had to do some adjustments. hooked flow meter to test hydraulic flows out of all couplers

JAHL Sept 4

worked with Jacob to set detents on remote one and two.
