I hereby authorize the above repair work to be completed, including any necessary materials, labour, and/or other charges as may be applicable. Young's Equipment Inc., its employees, and assigns may operate the above-noted vehicle, as well as other equipment that may be necessary to operate said vehicle, for the purposes of testing, diagnosing, inspecting, repairing, and/or delivering at my risk. Young's Equipment Inc. is not responsible for any loss of and/or damage to the equipment, or its contents, whether due to collision, fire, theft, or any other cause, except where such loss and/or damage is due to negligence on the part of Young's Equipment Inc. Young's Equipment Inc. is hereby released from any and all claims for loss and/or damage not caused by the negligence of Young's Equipment Inc.
 • It is the customer's responsibility to ensure that a level of insurance, including physical damage insurance, that is acceptable to that customer is in place at all times while Young's Equipment Inc. is working on, and/or in possession of the above-noted equipment.
 • Young's Equipment Inc. does not assume any responsibility whatsoever for equipment left for repairs, storage, or other purposes, nor for articles left in vehicles. Vehicles driven by Young's Equipment Inc.'s employees at own risk.
 • An express mechanic's Lien is acknowledged on the above-noted equipment to secure the amount of repairs thereto. Terms are cash on receipt of invoice. Interest will be charged at the rate of 2% per month (24% per annum). Young's Equipment Inc. reserves the right, at its sole discretion, to refuse the release and/or delivery of equipment until such a point as invoices have been paid.
 • Estimates are for the items specifically identified in the estimate only, and are non-binding.

CHECK/REPAIR HYDRAULICS

COMPLAINT:

#3 not working properly
low flow not adjustable makes noise
check all others

CORRECTION:

(AB) May7/18

-Check and ran machine and it's noisy, implements are sluggish. Added hytrans 1 pail from my service truck and customer had 1 pail + 3 L in total. Ran everything and after system stabilizes the implements were working fine. The air tank auger works good now, the fan works good as well. However, the monitor tells me "0" zero rpm. on the fan speed. Then, check the wiring connector and seemed okay.
Checked voltage from the harness side and had good voltage respectively. Looked up the spec. adjustments for the speed sensor and followed steps accordingly.
Appears that the error flashing is gone.
Checked his flow control knob and cable.
It was stiff when the implement was engaged. Turning this knob is fine when the lever is in float or neutral.
Everything works normal but an unusual noise is heard in the cab.
